WORK EXPERIENCE

2025 – Present	Commissariat au Numérique de Défense (CND) <i>Data Analyst – Data Engineer Reserve Sergeant</i> • Performed confidential analytics for the French Armed Forces, focusing on data structuring and operational analysis. • Built structured datasets to improve operational efficiency, enabling faster and more reliable access to key information.	France
Jul – Dec 2025	Generali <i>Data and IT Transformation Intern</i> • Built operational dashboards (Power BI, Excel) from raw data to track performance and delivery across teams. • Automated 15+ workflows (Power Automate), saving the team roughly 10 person-days of manual effort each month. • Developed internal tools and AI agents to improve information access and project execution across Tech & Ops teams (Copilot Studio, Python).	Saint-Denis
May – Jul 2024	Sunver <i>CEO Right-Hand (Growth and Operations)</i> • Built a GenAI chatbot prototype (Mistral) integrated into the Sunver app, improving onboarding and overall user experience. • Launched and monitored 2 Meta Ads campaigns (3,000+ reach, 14% lead conversion rate).	Boulogne-Billancourt
May 2024	CMA CGM <i>Data Consulting Case – Network & Route Optimization</i> • Modeled a maritime network (372 ports, 3,020 routes) via graph optimization and multi-criteria analysis; achieved –4.6% CO ₂ per TEU for 54% of shipping lines at only +0.09% additional cost.	Marseille

LEADERSHIP & INVOLVEMENT

Jul 2024 – Jul 2025	Albert Junior Consulting <i>Vice President and CTO</i> • Doubled revenue vs. previous mandate; drove growth via SEO and social media, generating over 22,000 total impressions. • Led end-to-end recruitment and selection, attracting 80 candidates and operationalizing the full hiring funnel. • Built and deployed a CRM (100+ prospects) and automated core internal workflows using Notion, Zapier, and Make.	Paris
Oct 2025 – Present	Notion <i>Campus Leader</i> • Selected as a Notion international Campus Leader; promoted collaborative tools and digital productivity across campus. • Promoted Notion at Albert School with hands-on workshops and published 3 templates on the Notion Marketplace.	Paris

TECHNICAL SKILLS

Data & Analytics: Python (Pandas, NumPy), SQL, EDA, data cleaning, analytical modeling, dashboards.
Machine Learning & AI: scikit-learn, supervised and unsupervised learning, model evaluation, applied Generative AI.
Automation & Ops: Workflow orchestration, Zapier, ETL, process automation.
